## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claim 3 is rejected under 35 U.S.C. 102(e) as being anticipated by Hutchins (USPN 6,485,360). Hutchins discloses machining apparatus comprising a rotating spindle 46 mounted rotatably, a rotating drive source 16 for rotationally driving the rotating spindle 46, a rotary tool 40 detachably mounted on the rotating spindle 46, at least one screwed member 52 screwed to the rotating spindle 46 for mounting the rotary tool 40 on the rotating spindle 46, a selective rotation inhibiting means is disposed for selective inhibiting rotation of the rotating spindle 46, and the selective rotation inhibiting means includes a plurality of stop concavities 56 formed in an outer peripheral surface of the rotating spindle 46, a stop member 54 to be selectively located at an operating position where the stop member 54 engages one of the stop concavities 56, and a nonoperating position where the stop member 54 recedes from an engaged stop concavity 56, wherein the plurality of the stop concavities 56 are formed at equal intervals in a circumferential direction (note Fig. 1-3, col. 3, line 45 to col. 4, lime 20).

***Allowable Subject Matter***

3. Claims 5 and 6 are allowed.

***Response to Arguments***

4. Applicant's arguments with respect to claims 3 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

6. A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
